

Legal Experts are Made at Drexel

As industries become increasingly specialized, you need the relevant knowledge to stay competitive in the job market. Drexel University's online LLM programs from the Thomas R. Kline School of Law help you gain the expertise you need to establish yourself as a specialist in either cybersecurity and data privacy or health care and pharmaceutical compliance. With the ability to complete the program online on either a full- or part-time basis, Drexel makes earning your degree convenient for you.

LLM in Cyber Law and Data Privacy

With a focus on topics like EU data privacy and internet law, this specialized program will help you fill a knowledge gap that's needed in the cyber law and data privacy field. You can also tailor elective courses to specific fields such as health care, finance or higher education.

LLM in Health Care and Pharmaceutical Compliance

The health care and pharmaceutical industry is increasingly complicated and ever-changing, and this program prepares you with the insider knowledge you need to successfully navigate the system. You can focus on either Health Care Compliance or Pharmaceutical Compliance or take classes in both areas.
