

Litigation Data Hosting Best Practices: To InSource or To Outsource?

✖ Elijah Ltd. will present a webinar reviewing deployment options as law firms navigate the decision regarding whether or not to bring legal technology in-house.

The complimentary one-hour webinar will be Tuesday, July 29, beginning at 1 p.m.

Elijah Ltd.®, an industry leader in computer forensic services and eDiscovery project management, processing and hosting, will present “Litigation Data Hosting Best Practices: To InSource or To Outsource?” Hosted by Rick Weber, CSO, Elijah, along with guest speaker Ian Campbell, President and Co-founder, iCONNECT Development, LLC, this informational webinar will review deployment options as law firms navigate the decision regarding whether or not to bring legal technology in-house.

As more organizations consider the possibilities, there is much discussion these days with regard to insourcing, outsourcing and managed discovery services (hybrid models) to manage, deliver and support high quality eDiscovery services. The points to consider are extensive, and the results of this analysis are often unique to each firm and likely vary for each matter.

Topics will include:

- Emerging Trends in Litigation Data Review and Managed Services
- Emerging Practices for Maximizing Deployment
- Cost Shifting Strategies
- How to Build a Flexible Solution
