Medicaid: Getting Paid & Keeping It

McBrayer, McGinnis, Leslie & Kirkland will present a webinar on dealing with the challenges of getting paid for services rendered through Medicaid.

The free webinar will be in two sessions: August 20 and August 27, beginning at noon Eastern time.

The McBrayer health care group and Kentucky Primary Care Association will present a discussion about the Medicaid reimbursement process – disputes, audits, appeals, reconciliations, payment plans, and everything in between. This two-part series webinar will help you make sense of Medicaid and put you on the road to reimbursement, according to the McBrayer website.
