

Merrill Again Earns kCura's Relativity Best in Service Designation

Merrill Corporation, a leading global provider of technology-enabled services for the legal, financial, health care, real estate and other corporate markets, has once again earned kCura's Relativity Best in Service designation.

In a news release, Merrill says the designation recognizes Relativity Premium Hosting Partners who provide an exceptional Relativity experience for end users. Relativity Best in Service partners demonstrate their expertise and experience hosting projects in Relativity. Merrill earned this designation for the first time in October 2013.

Through a voluntary audit, kCura evaluates Relativity Best in Service partners' individual data centers in three areas: technical infrastructure, customer service, and product expertise. Additionally, Best-in-Service partners meet a set of requirements for their duration as a hosting partner, size of Relativity installations, and core Relativity certifications.
