

Contract Management Assessment: Identify Your Business Need for a New Solution

Merrill Datasite offers a free online assessment designed to give a business manager a better understanding of a company's internal business need and help make a business case for a new contract management system.

"You know your organization needs a better contract management solution," Merrill says on its website. "For months, maybe even years, you've been trying to make the case, but you're still running in circles; the challenges and potential problems of your current system continue to mount.

"What will it take to finally convince senior management that it's time to take action? First, you need to identify the driving business need in your organization. Then, you can use it to make the case for a new contract management system."

Take the assessment.
