10 Ways to Transform Your Legal Department – Mitratech White Paper

In the wake of an economic recession, many corporations have experienced greater scrutiny into their financial decisions, according to a report from Mitratech. Higher expectations, decreased budgets, and a growing workload are prevalent among every function of the organization, but legal departments have experienced the greatest shift in these dynamics over the past decade. This disruption has become the catalyst for much needed changes in the power structures of legal departments.

Mitratech is offering a free **white paper** that it calls a blueprint for becoming the best-run business unit in the organization.

The paper offers such advice – along with commentary and insight – as: visualize and measure what success looks like, hire a director of legal operations focused on operational excellence, create a legal technology roadmap through collaboration with it, leverage data to optimize resource selection, and train your legal staff to better understand the business.

Download the white paper.
