

Oilfield Services Companies – Preparing to Follow Your Customers into Mexico

✘ Haynes and Boone has posted the seminar materials on the firm's recent update on Mexican energy reforms plus joint venturing challenges and solutions in Mexico.

On its website, Haynes and Boone says that Mexico's energy reform is creating tremendous business opportunities in the energy industry, including for oilfield service companies. However, participating in a joint venture to enter the Mexican market is not like going into North Dakota.

This seminar is a nuts and bolts presentation on what you need to know about joint ventures now to follow your customers and opportunities into Mexico, the firm says.

Haynes and Boone partner Chris Wolfe is moderator for the seminar.
