E-Sign: Reducing Risk & Strengthening Enforceability Webinar

eSignLive by Vasco will present a complimentary **one-hour webinar** providing practical evidentiary considerations of electronic records and signatures and guidance on how to reduce your risk.

The event will be Tuesday, Feb. 7, 2017, beginning at 2 p.m. Eastern time.

Organizations undergoing digital transformation often have legal questions related to moving paper-based business processes online without introducing new risks. Beyond the minimum requirements for electronic and digital signatures set forth in the laws, addressing the risk of fraud, repudiation and compliance is of utmost importance as well. In the event of a regulatory audit or legal dispute, avoiding fines and ensuring admissibility is dependent on a company's ability to produce convincing, reliable evidence.

Presenters will be Pat Hatfield, Partner at Locke Lord LLP, and Andrea Masterton, Corporate Marketing Director at eSignLive.

Highlights will include:

- A brief overview of e-sign legislation
- Insights gained from relevant case law
- How e-signature laws overlay with existing commercial and industry regulations
- The challenges of defending electronic transactions
- A live demonstration of 'best practice' e-signature audit trails & process evidence
