Webinar: Risky Business? Top Four Risks that Online Marketplaces Must Consider

Payoneer will present a complimentary webinar on the key components that a business needs to make up a risk and compliance program.

The webinar, titled “Risky Business? The Top 4 Risks that Online Marketplaces Must Consider and How to Address Them,” will be Wednesday, July 15, beginning at 1 p.m. Eastern time.

“This webinar is a must-watch for finance, legal, risk and compliance professionals from all types of online marketplaces, regardless of the products or services you sell.” Payoneer says on its website.

The event will cover:

- The key elements of strategic, reputational, fraud and compliance risk and why they are important to every online marketplace
- The legal requirements that apply to online marketplaces of all sizes, whether you’re starting out or already leading your category
- How do you build a risk management program that keeps your marketplace safe and allows you to focus on growing globally
- Your essential checklist when making sure your payment provider has a risk and compliance program

Two of the industry’s leading experts with experience in building risk and compliance programs for marketplaces in the freelance, ecommerce, travel and other verticals will be available for a live Q&A session.

Register for the webinar.
