May 3 Live Event: Explore the Value of ESOPs By Studying a Proven Implementation

Bloomberg Tax will present a live event designed to help business owners, tax, finance directors, in-house counsel, bankers and investment professionals including PE & hedge fund managers to learn how employee stock ownership plans (ESOPs) can provide more than just an exit strategy. They may be an opportunity for a growing business and its employees, the company says.

The event will be Thursday, May 3, 2018, 2:30-6 p.m., at Bloomberg L.P., 120 Park Avenue, New York 10165.

"**New Era of Material Wealth Creation With ESOPs**" will look at all the benefits associated with ESOPs, including top performer retention, growing capital, and future planning.

Presenters will move past theory into the practical implementation of an ESOP. Through a case study, thought leaders will explore all of the stages of the process, including crafting the right design, securing employee buy-in, and more, Bloomberg says on its website.

Register for the event.
