Using KPIs to Measure Contract Management Performance

ContractWorks has published a guide to recognizing, establishing, and monitoring the most important key performance indicators for corporate agreements.

“Using KPIs to Measure Contract Management Performance” is available for **downloading** from ContractWorks’ website at no charge.

This publication can provide guidance on creating effective KPIs for key contracting areas, discussing steps for successfully presenting objectives and KPIs, using KPIs to actively monitor SMART objectives, and discussing tips for getting started and ensuring success.

Download the guide.
