

Webcast: How E-Signatures Can Reduce Risk of Signed Records

eSignLive by Vasco is offering a complimentary **on-demand webinar** featuring Locke Lord LLP partner Pat Hatfield discussing how e-signatures can reduce risk and strengthen enforceability of signed records.

Organizations undergoing digital transformation often have legal questions related to moving paper-based business processes online without introducing new risks, eSignLive says on its website. “Beyond the minimum requirements for electronic and digital signatures set forth in the laws, you will want to ensure you address the risk of fraud, repudiation and compliance as well. In the event of a regulatory audit or legal dispute, avoiding fines and ensuring admissibility is dependent on your ability to produce convincing, reliable evidence.”

This webinar covers:

- An overview of e-sign legislation
- Insights gained from relevant case law
- The challenges of defending electronic transactions
- A live demonstration of “best practice” & e-signature audit trails & process evidence

Watch the on-demand webinar.
