Invitation: The Year's Biggest E-Discovery Event

Thousands of legal professionals are expected to participate in the **5th Annual E-Discovery Day** – through webcasts and live in-person events – on Dec. 4, 2019.

In addition to a webcast, the event will include networking and learning sessions in cities across the United States. Last year's E-Discovery Day had more than 2,600 participants, at 19 webcasts and 14 in-persons events.

Exterro, powering the annual event, said that access is complementary, and no vendor pitches will be allowed.

Seventeen leading legal organizations are official E-Discovery Day supporters, Exterro said in its invitation.
