Webinar: #ThinkTank – The State of the Legal Industry

High Performance Counsel will kick off its **#ThinkTank series** with the first quarterly briefing on the state of the legal industry on April 12, 2019.

Faculty members recruited by the company will share their thoughts on just three questions – each designed to elicit actionable intelligence to equip the modern legal professional navigating the marketplace.

“We’ve created #ThinkTank to be a critical sounding board for those looking ahead – and looking to get ahead – in the modern legal industry,” the company says on its website. “Our annual #ThinkTank membership program provides exclusive access to #hipcounsel events, including our State of the Legal Industry Quarterly Briefings and Members Only published insights.”

Register for #ThinkTank.
