Join Sally Yates at NACD's 2019 General Counsel Event

The National Association of Corporate Directors will present the **2019 Strategic-Asset GC event**, taking place Tuesday, June 11, at the Metropolitan Club in New York City.

The event will feature an expert panel that will include former U.S. deputy attorney general Sally Yates. Participants will learn about revisions being made to the *Yates Memo* and how those revisions will apply to board members specifically. The discussion will also include information about legal blind spots that general counsel and directors need to be aware of, as well as a poignant discussion around the bigger picture of corporate responsibility and culture.
