Webinar: How Solid is Your Whistleblower Program?

More whistleblowers turn directly to the SEC to report complaints of alleged misconduct than to internal reporting systems, reports NAVEX Global. A recent U.S. Supreme Court ruling further encourages this behavior, so it is critical to evaluate a company's employee whistleblowing program.

NAVEX will present a **complimentary webinar** on the subject on Tuesday, April 10, 2018, beginning at 10 a.m. Pacific / 1 p.m. Eastern time.

Participants will hear new insights from the 2018 Ethics & Compliance Hotline & Incident Management Benchmark Report. Experts at Baker McKenzie and NAVEX Global have analyzed the data to show you how to assess your program and improve the odds that an employee will report to you first—giving you critical foresight into potential organizational risk.

Presenters will be Carrie Penman, Chief Compliance Officer and Senior VP, NAVEX Global; and Scott Nelson, Partner, Baker McKenzie LLP.

Register for the webinar.
