Steven Hunter Elected to President’s Council of the Museum of Science and Industry

Steven V. Hunter, partner, Quarles & Brady

The national law firm of **Quarles & Brady LLP** has announced that Chicago partner Steven Hunter has been elected to the president’s council of the Museum of Science and Industry.

In 1933, the Museum of Science and Industry (MSI) opened, and to date has over 35,000 artifacts and more than 400,000 square feet of hands-on experiences, making it the largest science museum in the Western Hemisphere. On a rotating basis, educational movies, tours, exhibits, and events are offered at the museum.

The President’s Council provides opportunities for members to use their civic and philanthropic leadership while promoting the museum’s vision to ultimately inspire and motivate children to achieve their full potential in the fields of engineering, medicine, science, and technology. Hunter is one of 44 community leaders that serve as ambassadors of the museum. Each individual of the president’s council contributes their talent, time, and resources.

Hunter is a trial lawyer with first-chair experience representing companies in all phases of litigation and

alternative dispute resolution, including discovery, “e-discovery,” motions practice, arbitration, mediation, jury trials, bench trials, and appeals. He also represents pro bono clients in criminal, family law, and political asylum proceedings.

He received his law degree from the Georgetown University Law Center and his bachelor’s degree from Brown University.
