

Results of the Dykema/MICHauto/The Right Place COVID-19 Automotive Outlook Flash Survey

The automotive industry is a critical component of the U.S. economy connecting a wide range of industries, from part and raw material suppliers to providers needed for the day-to-day sale and operation of vehicles. In July 2020, Dykema, MICHauto and The Right Place canvassed automotive executives, professionals and service providers to gauge their perspectives on the U.S. economy and the automotive industry and, particularly, the effect of the COVID-19 pandemic.
