Risk Mitigation for Oil and Gas Industry Corrosion

Knovel has posted a free on-demand webinar discussing risk mitigation and new rules, standards and regulations and the consequences of non-compliance regarding corrosion in the oil and gas industry.

The webinar covers the 5M Scorecard Methodology – Modeling, Mitigation, Monitoring, Maintenance and Management; how to implement an integrity management program; and the best practices to communicate to the public.

Featured speakers are Dr. Sankara Papavinasam, President of CorrMagnet Consulting Inc. of Ottawa, Ontario; and Dr. Pavan K. Shukl, Senior Research Engineer at the Southwest Research Institute in San Antonio, Texas.

Watch the on-demand webinar.
