

Scotch Creek Ventures Inc. Contracts Geophysics Program for the Macallan and Highlands West Projects, in Clayton Valley, USA

“Scotch Creek Ventures Inc. (the “Company”) (CSE:SCV)(FSE:7S2)(OTC PINK:SCVFF) (“Scotch Creek” or the “Company”) is pleased to announce that it has retained Hasbrouck Geophysics Inc. (“Hasbrouck”) to commence work on its two Clayton Valley lithium brine projects. Hasbrouck will commence with a detailed HSAMT survey and the results from this survey will aid in identifying and selecting potential future drill targets,” reports Yahoo Finance in their blog.

“The geophysical exploration program will consist of Hybrid-Source Audio-Magnetotellurics (HSAMT) where data will be acquired at intervals of 500 meters along four lines within each claim block with a nominal total of 31 and 41 stations within the Macallan and Highlands claims.”
