

# Seamless Legal Accounting: Principles Every Lawyer Must Know

☒ Above the Law and Clio present a free on-demand webinar aimed at helping lawyers improve their accounting management.

On its website, Above the Law says that, for most attorneys, time spent managing the books is a necessary evil at best. Yet it is undeniably a crucial aspect of running a successful practice.

This webinar is designed to help participants learn what it takes to streamline your accounting and get the most out of your time.

This webinar covers:

- The basics of accounting for lawyers
- How legal accounting differs from regular accounting
- Report and reconciliation issues surrounding trust accounts
- How to pick and integrate the best accounting tools for your practice
- Steps to prepare your tax return for your firm's income
