

Top 10 Financial Reporting Issues in Acquiring Oil and Gas Properties

Sirius Solutions presents a free white paper exploring several key issues commonly faced in the valuation and financial reporting of oil and gas property acquisitions.

The paper is written by Sirius Solutions' John Lehman, Financial Advisory Services Director.

"The complexity of oil and gas property acquisitions has increased due to constantly changing positions on appropriate valuation techniques, methodologies and regulatory requirements," the company says on its website. "Sirius Solutions knows financial executives like yourself in the oil and gas industry are under pressure to complete the preliminary financial reporting of property acquisitions as quickly and efficiently as possible."
