

Settlement Structuring for IBM Audits

Insight

Christopher Barnett of Scott & Scott LLP offers some advice on subjects to keep in mind when negotiating a software audit resolution with IBM.

Are Artificial-Intelligence Software Audits Around the Corner?

Article

Recent weeks have seen a number of news reports and announcements indicating that the Next Big Thing for audits – financial audits, at least, for the time being – is the use of artificial intelligence technologies to facilitate the analysis of large volumes of data in the context of audit-related activities.

Legal Risks of IBM Licensing – Webinar

EVENT, Jan. 20, 11 a.m. CST

In a Scott & Scott webinar, partner Julie Machal-Fulks will

discuss some of the challenges that organizations encounter when trying to ensure compliance with their IBM license agreements.
