

Increased Swaption Activity May Present Financial Reporting Challenges for Oil & Gas Companies

Insight

An increased use of swaptions may help upstream oil and gas producers weather lower natural gas prices, but they present financial reporting challenges.

Minimum Volume Commitments in the Midstream Industry

Insight

In the midstream industry, these contracts are typically utilized to enable the operator to recoup the costs of constructing infrastructure, such as a processing plant or pipeline lateral, for the benefit of the counterparty, according to Opportune.

My Mineral Producer has Filed

Bankruptcy – Now What?

Article

As the dreaded packet arrives in the mail from a Bankruptcy Court, many mineral owners are being introduced to the third “B” of the oil business – Boom, Bust, Bankruptcy.
