

The Anthem Data Breach: What Employers Need to Know

Lawyers from BakerHostetler's Privacy and Data Protection team hosted an informative webinar providing an in-depth discussion of the issues raised in the firm's recent blog post on "FAQs by Employers Regarding the Anthem Data Breach." That webinar is now available for free viewing on-demand.

The webinar covers legal obligations under HIPAA, the duty to notify, obligations for employers offering group plans, responding to employees' concerns, obligations of ERISA fiduciaries, ERISA preemption of state law obligations, and recommended next steps.

The firm has made both the PowerPoint presentation and the recorded webinar available.
