The Walmart Settlement: A Game Changer for Retailers

ReposiTrak has posted a free on-demand webinar on Walmart's 2014 settlement of 23 cases in the wake of the Jensen Farms class action litigation due to an outbreak of listeriosis linked to cantaloupes.

Walmart's play that day in court sets precedent that retailers now may be viewed as stepping into the shoes of the manufacturer and are now on the hook when things go wrong in the supply chain, ReposiTrak says on its website.

This webinar discusses this precedent setting settlement and what a retailer or wholesaler can do to protect brand and reduce liability.

Watch the on-demand webinar.
