

# Webinar – Navigating a Complex World: Ensuring Corporate Compliance Abroad

Bloomberg BNA will present a complimentary 60-minute webinar in which experienced panelists will discuss how corporations can comply with laws in some of the most complex jurisdictions.

Speakers from **TMF Group**, **ThermoFisher** and **White&Case** will go into detail on the differentiators that make these jurisdictions more complex than others, the compliance framework that businesses must comply with, and examples of issues faced when operating abroad, Bloomberg said in a release. (**Register here.**)

The webinar will be Thursday, March 3, beginning at 1 p.m. EST.

When your business is expanding internationally, you will find that some of the most favorable countries can also have the most complex regulations, Bloomberg BNA says. When you are providing advice to your organization on how to comply with these regulations, the rules are complex and adherence is difficult

Panelists will discuss how to comply with these laws in the top 10 most complex jurisdictions, including Argentina, the United Arab Emirates, and South Korea, and ensure that your company is operating legally and effectively. They will discuss the compliance framework that business must comply with, the differentiators that make these jurisdictions more complex than others, and real-life examples of issues faced when operating in these jurisdictions.

**Educational Objectives:**

- Understand the corporate secretarial compliance issues involved when operating and expanding globally
- Learn about the regulatory framework of the most complex jurisdictions
- Recognize the particular difficulties that arise when attempting to comply with regulations in the most complex jurisdictions
- Gain practical tips on compliance when conducting business in these jurisdictions

**Who would benefit most from attending this program?**

General and in-house counsel for companies operating internationally as well as domestic companies considering expanding internationally; executives of international and domestic companies will also benefit from this webinar.
