

UI Integrity Update: Effective Compliance, Effective Reporting

Equifax will present the next in a series of webinars detailing the recent legislation regarding UI Integrity (Unemployment Insurance Integrity) and its impact on employers.

The free webinar will be Wednesday, Dec. 3, at 12 p.m. Central time.

Unemployment claims response is no longer an issue of whether or not to protest a claim, but a matter of UI compliance that involves increasing financial penalties, Equifax says.

Updates on the evolving UI system, which places increased focus on timely and adequate claims response, will be provided along with the following details:

- Up-to-date guidance on state interpretations of the federal mandate
- Efforts by state agencies to identify overpayments and enforce non-compliance penalties
- Best practices for timely and adequate claims response, maximizing favorable determination response, and the use of the latest enhancements to CaseBuilder to ensure UI compliance moving forward

Guest speakers will include experts in Unemployment Cost Management, UI Integrity, and Government Relations. In addition, all attendees will receive the most recently updated White Paper on UI Integrity and Compliance (Q4/2014) featuring a current state-by-state matrix with interpretations of a

“pattern of failure,” non-compliance penalties, and overpayment rates by state.

Register for the webinar.
