

UI Integrity Update: Effective Compliance, Effective Reporting

☒ Equifax Workforce Solutions will present a complimentary webinar on the continued government focus on unemployment insurance integrity and its impact on employers.

The one-hour webinar will be Tuesday, July 8, beginning at 1 p.m. Central time.

Moving forward, unemployment claims response is no longer an issue of whether or not to protest a claim, but a matter of UI compliance that involves increasing financial penalties.

Updates on the evolving UI system, which places increased focus on timely and adequate claims response, will be provided along with the following details:

- Current guidance on state interpretations of the federal mandate
- Continued efforts by the Department of Labor to reduce benefit overpayments
- Employer strategies for identifying improper claims including enhanced compliance reporting to effectively identify areas of non-compliance within your organization

Guest speakers will include experts in Unemployment Cost Management, UI Integrity, and Government Relations. In addition, all attendees will receive the most recently updated White Paper on UI Integrity and Compliance (Q2/2014) featuring a current state-by-state matrix with interpretations of a “pattern of failure,” non-compliance penalties, and overpayment rates by state.
