Wal-Mart Wins Dismissal of Mexico Bribery Lawsuit

A Delaware judge has dismissed a lawsuit by Wal-Mart Stores Inc. shareholders who accused the board of the world's largest retailer of trying to cover up bribes paid by company executives in Mexico, according to a **report by Reuters**.

The Delaware judge ruled that an earlier dismissal by an Arkansas judge of a nearly identical lawsuit by another group of shareholders precluded the Delaware case from going forward.

"He said that while the Arkansas plaintiffs may have chosen to rush their case rather than fully investigate alleged wrongdoing, their haste did not disqualify them from representing Wal-Mart shareholders," Reuters reported.

In 2012, *The New York Times* reported that found Wal-Mart had engaged in a multi-year bribery campaign to build its Wal-Mart de Mexico business.
