

Weatherford Appoints General Counsel and CCO

“Weatherford International has recruited Scott Weatherholt as executive vice president, general counsel and chief compliance officer (CCO),” reports Ben Maiden in **Corporate Secretary’s Appointments**.

“Weatherholt was previously senior vice president and general counsel at Arena Energy and its affiliates, a role in which he had a focus on offshore Gulf of Mexico shelf exploration and production activities. Before that, he was an executive vice president, general counsel and corporate secretary at Midstates Petroleum, where his work included legal oversight of a merger with Amplify Energy and a large debt-for-debt recapitalization.”

“Earlier in his career, Weatherholt spent a decade at Samson Resources, where he was assistant general counsel of operations with responsibility for operational legal, land and regulatory issues for the Permian Basin, Eagleford, Mid-continent, Haynesville/Cotton Valley, Powder River, Green River and Bakken business units.”
