

Webinar: Oracle Licensing Optimization

☒ Technology consulting company DBAK will present a webinar discussing the increasing complexities of the Oracle licensing landscape and provide the top 10 tips for optimizing Oracle Licensing.

The webinar titled “Oracle Licensing Optimization: Compliance, Complexity and Configuration” is scheduled for July 30, at 11 a.m. Mountain time.

Hosted by Oracle Licensing expert Esley Gustafson and Software Compliance Subject Matter Expert Karen O’Neill, this hour-long session will unravel the increasing complexities of the Oracle licensing landscape and provide the top 10 tips for optimizing Oracle Licensing. Designed specifically for Software Asset Managers, IT leaders, as well as Finance and Procurement personnel, the live webcast will deliver technical insight and strategic business-oriented guidance for those interested in:

- Understanding and Overcoming Compliance Challenges and Requirements
- Navigating the Complexities of Today’s Oracle Licensing Landscape
- Configuration as a key component of Optimization success
