

Well Delivery Webinar: Solution for Unconventional Drilling / Shale Plays

✖ SigmaFlow will offer a well delivery solution webinar for upstream oil and gas exploration and production on Friday, August 15, at 10:30 a.m. Central time.

Webinar attendance will be limited to oil and gas company employees.

SigmaFlow's Well Delivery Solution streamlines and manages scheduling, operations, and reporting to maximize value from well creation through drilling.

In this hour-long discovery webinar, SigmaFlow's Director of Client Services, Joe Hanttula, will discuss the SigmaFlow Well Delivery and Rig Scheduling Solution for upstream oil and gas exploration and production.

This webinar will feature a high-level overview of solution capabilities, an in-solution demo, and a live Q&A.

Key points that will be discussed during this webinar include:

- Standardized process execution & ad-hoc tasks
- Multi-schedule management for asset & rig scheduling, accurate status visibility, and forecasting
- SigmaFlow as the "Time System of Record"
- Dashboards & analytical reporting capabilities
- Integrations & the SigmaFlow deployment process

Register for the webinar.
