

# We've Moved!

5 years ago, SDV opened its doors in Southeast Florida. Today, the office has grown exponentially, has a team of legal professionals and has hopes to expand even further. The growth the Naples office has experienced is nothing short of monumental. "This is a welcomed expansion. The needs of our clients grew and so did we." says Gregory D. Podolak, Managing Partner at SDV. "I love the client base that we have. Our client base consists of a diverse range of commercially sophisticated entities, and we get to workday in and day out with people who recognize and appreciate the complexity of the things we do, they recognize that it requires diverse perspectives, risk managers, general counsel, outside coverage council, and liability council to be able to find one cohesive vision for a successful outcome."

Offering significant value to relationships is the core of SDV's success. Strong relationships with likeminded individuals helped SDV thrive and earn the respect of its clients and colleagues. The firm has stayed true to that model to this day.
